

# MARCO RAMPAZZO

## PERSONAL INFORMATION

---

<b>Address</b>	<b>Department of Mathematics, University of Bologna</b> Piazza di Porta San Donato 5 40126 Bologna (BO) Italy
<b>Home address</b>	Via Kennedy 39 21040 Sumirago (VA) Italy
<b>Telephone number</b>	+39 3667049854
<b>Email</b>	marco.rampazzo3@unibo.it marco.rampazzo.90@gmail.com
<b>Homepage</b>	<a href="https://marcorampazzo.github.io">https://marcorampazzo.github.io</a>

## ACADEMIC ACTIVITY

---

<b>Current position</b> Postdoc, University of Bologna	February 2021 – now
<b>Previous positions</b> Teaching assistant, University of Bologna	October 2021 – January 2022
Teaching assistant, University of Stavanger	October 2020 – December 2020
PhD student in mathematics, University of Stavanger Supervisor: Michał Kapustka Thesis: “Equivalences of Calabi–Yau manifolds and roofs of projective bundles”	September 2016 – September 2020
<b>Short term visits</b> Guest of the Paul Sabatier University, Toulouse Funding: Norwegian Research Council mobility grant	February 2019 – May 2019
Guest of the Max Planck institute for Mathematics in the Sciences, Leipzig Funding: MPS MiS	22 June 2022 – 24 June 2022

## OTHER COLLABORATIONS

---

<b>Algoretico s.r.l.s.</b> <a href="https://www.algoretico.it">https://www.algoretico.it</a> Subject: applied mathematics	January 2022 – August 2022
---	----------------------------

## EDUCATION

---

<b>Master’s degree in Physics</b> University of Milan	July 2016
<b>Bachelor’s degree in Physics</b> University of Milan	December 2013

## RESEARCH INTERESTS AND WORK IN PROGRESS

---

*Algebraic varieties*: Calabi–Yau varieties, homogeneous varieties and homogeneous vector bundles, Fano varieties with multiple projective bundle structures (with Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi). Canonical surfaces in Grassmannians and their smooth quotients (with Francesco Denisi, Enrico Fatighenti, Stevell Muller and Fabio Tanturri)

*Derived categories of coherent sheaves*: semiorthogonal decompositions, mutations of exceptional collections, derived equivalences, Fourier–Mukai transform, homological projective duality (with Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi, Riccardo Moschetti, Jacopo Gandini)

*Birational geometry*: roofs of projective bundles, K-equivalence, DK-conjecture (with Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi)

*Gauged linear sigma models*: multiple geometric phases, phase transitions, variation of GIT (with Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi)

## TEACHING

---

### Courses:

Linear algebra fall 2019

### Exercise classes / tutoring:

Linear Algebra fall 2021

Discrete Mathematics, Linear Algebra fall 2020

Probability and Statistics spring 2020

Linear algebra fall 2018

Linear algebra fall 2017

## INVITED SPEAKER

---

Workshop “Derived categories and birational geometry”.

*K-equivalence and derived categories* Milan, 30 June – 1 July 2022

SAXAG seminar. *Derived categories and GLSM phase transitions*

Leipzig, 23 June 2022

IMPANGA seminar. *Homogeneous roofs of projective bundles and semiorthogonal decompositions*

Warsaw, 3 June 2022

Workshop “Grothendieck ring and derived category: a gathering”.

*$\mathbb{L}$ -equivalence for Calabi–Yau pairs in generalized Grassmannians* Turin, 27–28 April 2022

Seminar of Algebra and Geometry of the University of Bologna.

*Semiorthogonal decompositions and homogeneous varieties* Bologna, 15 June 2021

Seminar of Algebra of the Jagellonian University. *Computing Hodge numbers of Calabi–Yau varieties in Grassmannians*

Kraków, 11 April 2019

Workshop “Motives of Calabi–Yau manifolds”. *A gauged linear sigma model description for a pair of non birational Calabi–Yau threefolds*

Kraków, 19–21 May 2018

## CONTRIBUTED TALKS

---

- Conference “Recent advances in classical algebraic geometry.  
*Hodge structures and derived categories of Fano varieties in Grassmannians.* Kraków, 27 June – 2 July 2022
- Workshop “Algebraic Geometry days”.  
*Mukai roofs and K3 surfaces* Stavanger, 25–26 November 2019
- Conference “Nasjonalt Algebramøte 2019”. *Derived equivalence of Mukai roofs: the case of K3 surfaces of degree 12* Oslo, 7–8 November 2019
- Conference “Nasjonalt Matematikermøte 2018, PhD day”. *A GLSM description for a pair of non birational Calabi–Yau threefolds* Bergen, 12 September 2018

## SEMINARS ORGANIZED

---

- Seminar: *Bridgeland stability conditions* Bologna – Chemnitz – Nancy, fall 2021  
Organizer together with Simone Billi, Francesco Denisi,  
Franco Giovenzana, Annalisa Grossi and  
Mihai–Cosmin Pavel.  
Homepage: <https://marcorampazzo.github.io/bridgeland>
- Seminar: *The mathematics of gauged linear sigma models* Toulouse, spring 2019  
Organizer and speaker

## PUBLICATIONS AND PREPRINTS

---

1. *PhD Thesis*: Marco Rampazzo. *Equivalences between Calabi–Yau manifolds and roofs of projective bundles.* (2021). <https://doi.org/10.31265/usps.78>  
Available online at <https://ebooks.uis.no/index.php/USPS/catalog/book/78>
2. *Publication*: Michał Kapustka, Marco Rampazzo. *Mukai duality via roofs of projective bundles.* Bull. Lond. Math. Soc. (2022). <https://doi.org/10.1112/blms.12597>
3. *Publication*: Michał Kapustka, Marco Rampazzo. *Torelli problem for Calabi–Yau threefolds with GLSM description.* Communications in Number Theory and Physics, Volume 13, No. 4 (2019). <https://dx.doi.org/10.4310/CNTP.2019.v13.n4.a2>
4. *Publication*: Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi, Marco Rampazzo. *The generalized roof  $F(1, 2, n)$ : Hodge structures and derived categories.* (2021). Accepted by Algebras and Representation Theory. Preprint available at <https://arxiv.org/abs/2110.10475>
5. *Preprint*: Marco Rampazzo. *New counterexamples to the birational Torelli theorem for Calabi–Yau manifolds.* (2022). Available at <https://arxiv.org/abs/2211.03702>
6. *Preprint*: Marco Rampazzo. *Calabi–Yau fibrations, simple  $K$ -equivalence and mutations.* (2020). Available at <https://arxiv.org/abs/2006.06330>
7. *In preparation*: Enrico Fatighenti, Michał Kapustka, Giovanni Mongardi, Marco Rampazzo. *Homological projective duality for some Fano varieties in Grassmannians.* (2022).
